MUSIC PRODUCTION PSYCHOLOGY: 12 TIPS TO MAKE YOU MORE EFFICIENT AND PRODUCTIVE IN THE STUDIO

Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.In this book you will learn: How to finish better music, quickly, using the power of deadlines Different techniques to break through writers block How to stay inspired by your favorite productions and not discouraged by them and much, much more Every single paragraph in this book was written in a way to provide you maximum value, as I know your time is as valuable as your time. It's free, you really have nothing to lose. The worst that happens is that you find no value in this book, write me a bad review, and then we both move on with our lives. The best thing that happens? You breakthrough that creative block that's been haunting you. You finished more tracks in one month than you have in the past year. You get a girlfriend that absolutely falls in love with you because your music has just become out of this world. As much as I love to banter about why you should download this book, why the hell did I write it in the first place? Because I wanted to provide as much fucking value as possible to you to help you make you the best producer you can be, in return for a little economic reciprocity from you. Let's be honest, as much as I love the thanks and the good reviews, they don't pay the bills that will allow me to continue doing what I love full-time: Helping other people chase their dreams and making some kickass music. So by releasing this book to you all for free, my intent is to show you what my teaching style is...
