Atheistic campaigners continue to claim that science and faith are incompatible. The contributors to this book show the utter falseness of this claim. They come from a range of Christian backgrounds and all are orthodox believers, but significantly, they are all also distinguished scientists, from a variety of disciplines. Each of them gives their own account of how their science and faith intersect and interact in their personal life and thought. The contributors include: - Francis Collins, Human Genome Scientist - R.S (Bob) White, Professor of Geophysics, University of Cambridge - Alister McGrath, Professor of Science and Religion, Oxford True Scientists, True Faith combines selected essays from two preceding volumes, Real Science, Real Faith and Real Scientists, Real Faith, with new contributions from another five eminent scientists.
