Bibliogov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 46 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. In 2010, the planned retirement of the space shuttle will require the National Aeronautics and Space Administration (NASA) to make disposal and reutilization decisions regarding over 1.2 million types of equipment. To facilitate these and other equipment management decisions, NASA recently invested 29 million in a new program: the Plant, Property, and Equipment (PP and E) Module--a component of NASAs Integrated Enterprise Management Program. GAO was asked to assess the effectiveness of NASAs processes, systems, and controls for managing its PP and E. This report addresses whether NASA (1) effectively designed controls over steps NASA identified as key to its controlled equipment reutilization process, including sending equipment to disposal, and (2) implemented policies, controls, and processes to enhance equipment reutilization. To answer these questions, GAO reviewed NASA equipment reutilization policy and conducted on-site visits at five NASA centers. This item ships from La Vergne, TN. Paperback.
