Brand New Book ***** Print on Demand *****.Excerpt from Reprint and Circular Series of the National Research Council, Vol. 12: Industrial Research These fields are those of (a) so called scientific or pure research, most largely exemplified in our universities and higher institutions of learning; (b) engineering; (c) industrial research and (d) general business. Trained as an engineer in a technical school having more or less the standard scholastic ideas of the time as to the proper form of engineering education, chance threw me in the way of spending four years at the University of Chicago in physical, mathematical and chemical research under Prof. A. A. Michelson, one of the world's greatest living physicists - a Nobel prize winner. This novitiate under the tutelage of a master seeker after truth in the realm of physical science completed, I again took up my engineering profession in the form of graduate study and teaching at the Massachusetts Institute of Technology and had no more than completed this work when chance again threw me back into the research field- this time on the industrial side and...
