

## The Teacher s Assistant in the Course of Mathematics Adapted to the Method of Instruction in the American Colleges; With Tables from Briggs, Callet and Hutton

---

By Jeremiah Day

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1836 Excerpt: .we enter upon the treatise of Day. But, to place the subject within the reach of those who may not be very familiar with Algebra and Geometry, we shah give an explanation which can easily be understood by those whose mathematical knowledge does not extend beyond the operations of Arithmetic. An Arithmetical Progression is a series of numbers which increase or decrease by a common difference. The series of natural numbers, 1, 2, 3, 4, -. is of this kind; so is also the series of numbers, 1, 3, 5, 7, 9, 11, c. Here the common difference is 2; but it may be any number, whole or fractional. It is a property of this series, that double of any term is the sum of the two adjoining terms, so that an arithmetical mean between two numbers is half their sum. A geometrical progression is a...
