Not illustrated. 1912 Excerpt: .mortality 755 769 Actual mortality 749 764 Difference--6--5 Percentage difference--0.79--0.65 Boston, therefore, shows almost no improvement in infant mortality for the year compared with three of the five preceding years. The summer mortality has not been reduced in the last three years. The percentage of the year s infant deaths occurring during the three summer months is still fairly high, as is the proportion of all deaths during this period. Taking the high figure, 2742, in 1908, and estimating the deaths which should have occurred on the basis of a yearly increase of 1.96 per cent., there is only a decrease of 22.7 per cent., while New York shows for the year 1911 a decrease of 20.4 per cent. from the lowest, allowing for increase in population. Weather Conditions The weather conditions in Boston during the last three years are shown in the following tables: TABLE...
